

Can be adjusted at will

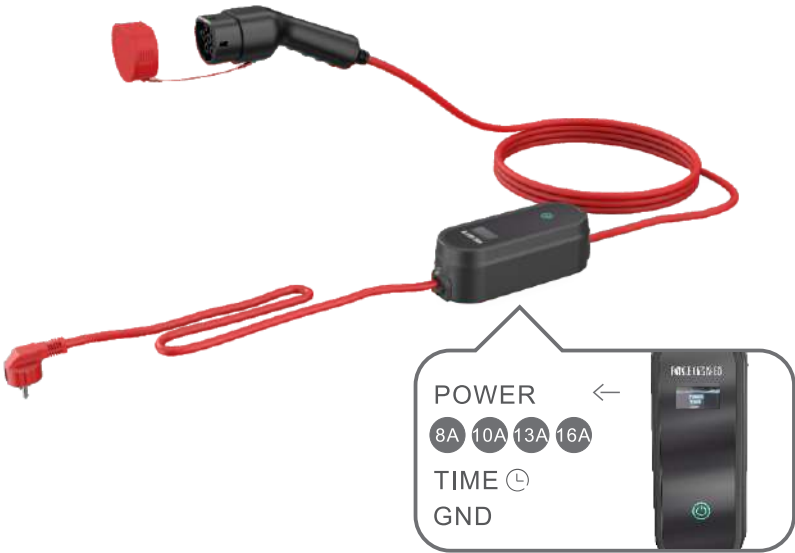

IC-CPD-F16AE-01

Input voltage: 220V +/-20%V AC
Output voltage: 220V +/-20%V AC
Output current: 16A
Rated power: 3.5KW MAX
Working frequency: 50HZ
Working temperature: -30°C~+50°C
Protection class: IP55
Protection functions: leakage protection, over and under voltage protection, overload protection, lightning protection, grounding protection, over temperature protection

Available in different
amps

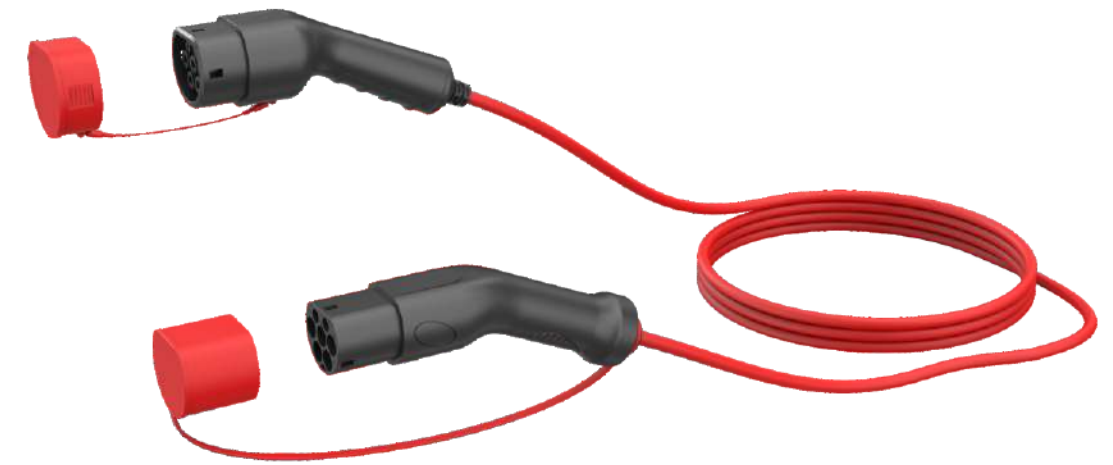

8A 10A 13A 16A

IC-CPD-A16AE-01

Input voltage: 220V +/-20%V AC
Output voltage: 220V +/-20%V AC
Output current: 8A, 10A, 13A, 16A (optional)
Rated power: 3.5KW MAX
Working frequency: 50HZ
Working temperature: -30°C~+50°C
Protection class: IP55
Protection functions: leakage protection, over and under voltage protection, overload protection, lightning protection, grounding protection, over temperature protection
